Alfons & Damián,
Sarrià-Sant Gervasi
Internal workings

Interior designers Alfons Tost and Damián Sánchez serviced an esteemed private clientele before opening a design shop, in-house florist and decorating studio in 2015. “We wanted to share unique pieces that were practically impossible to find anywhere else in Barcelona,” says Tost.

Just a short distance from Avinguda Diagonal, the shop’s sumptuousness extends across every inch of its interior with perfectly restored antiques, Karim Rashid-designed ornaments and playful glassware by Artel. The space has quickly become the emporium of choice for the affluent folks who call Sarrià-Sant Gervasi home.
